

MOM INSPIRED. HOSPITAL TRUSTED.

Personal Manual Breast Pumps

Ameda manual breast pumps are an excellent choice for mothers who pump their breast milk no more than once a day.

One-Hand Breast Pump with Flexishield™ Areola Stimulator

- Ergonomic and compact manual pump earning the High Design-Innovation Quality Award from Design Zentrum Nordrhein-Westfalen Germany
- Pump directly into any standard milk storage bottle or freezer bag
- Allows mothers to achieve multi-phase pumping by varying handle squeezes for more milk flow
- Pump includes the Flexishield Areola Stimulator to help stimulate the let-down reflex

Breast Pumping Starter Kit

Everything needed to manually pump, store and transport collected breast milk conveniently packaged in an insulated lunch bag-style tote.

- Sterile One-Hand Breast Pump with Washable Nursing Pads, Lanolin sample and insulated Lunch-Style Tote

One-Hand Manual Breast Pump Adapter

For mothers who already have a HygieniKit.™

- Converts HygieniKit Milk Collection System to One-Hand Manual Breast Pump

Hospital Discharge Kit

A simple kit for mothers to manually pump breast milk.

- One-Hand Breast Pump with Washable Nursing Pads and Lanolin sample

Cylinder Manual Breast Pump

This economical pump is one of the most effective two-handed pumps available.

- Graduated cylinder displays amount of milk pumped
- Easy to use and clean
- Reducing insert included for small nipples
